

André Henriques

I am a mostly self-taught software-engineer with some work experience, but I am always interested to learn more! My key strengths are my ability to learn new subjects and to share what I have learned, team communication, self-sufficiency and good time management skills.

EXPERIENCE

University of Surrey — *Lab PAL*

September 2021 - PRESENT

I help students do their lab work, by explain the subject or the exercise they are having problems with.

Helped with

Planum Solucoes, Lda

Help with various projects:

- Developing a variety of websites using react and svelte.
- Smooth the process of bug reporting via GitLab issues.
- Implemented automatic deployment with GitLab CI/CD tools.
- Designing a WebRTC video call system.
- Linux Server Administration
- Some examples: [DrPlay](#), [DrMoz](#), [Numo](#), [ICargo](#)

EDUCATION

University of Surrey — *Computer Science (2nd year)*

September 2020 - June 2024

Currently studying at the University of Surrey in computer science, currently in track to end with 1st Class

Externato João Alberto Faria — *High school education*

September 2008 - June 2020

PROJECTS

Not working on any big personal projects at the moment, but more information on my other small projects/experiments can be found at my [website](#)
